

## JOB LEADS #871

~~~~~  
Abby Kassab and I am a professional recruiter specializing in the placement of professionals with top companies in the Greater Philadelphia area. I wanted to connect with you because of the great experience you have on your resume.

My client, a well established Environmental Consulting Firm, is seeking a strong Buyer for a full time position in the West Chester area. Qualified candidates should have experience with:

- Conducting purchasing activities of commodities and services under **federal** and **non-federal** contracts
- Conducting sourcing to identify and qualify companies with appropriate qualifications and experience to furnish required materials, equipment, supplies and services
- Negotiating with suppliers to reduce overall cost and minimize administrative burdens
- Analyzing supplier quotations and proposals to determine lowest overall cost solution for materials/services being procured

I would love to discuss your career with you and be a resource to you now or in the future. I can be reached directly at **610-249-2804**. Please feel free to share my contact information with other professionals seeking new opportunities!

~~~~~  
Although [Victory Brewing Company](#) opened its doors in 1996, its [local founders](#) first developed their love of beer brewing with a home-brewing kit in 1985. The brewery now includes three taprooms and produces more than 100,000 barrels of beer a year.

### **General Manager (Kennett Square)**

This position achieves company objectives in sales, service, and cleanliness; makes employment and termination decisions; and ensures that restaurant policies on employee performance appraisals are completed on a timely basis.

The ideal candidate will possess a minimum of three years of front-of-the-house operations and/or assistant management experience; experience with MS Office, Aloha, and other industry software; and knowledge of service and food and beverage.

[Click here](#) to read more about the General Manager position at Victory Brewing Company.

### **Accounts Payable Clerk**

This position charges expenses to accounts and cost centers by analyzing invoice and expense reports; maintains accounting ledgers by verifying and posting account transactions; and verifies vendor accounts by reconciling monthly statements.

The ideal candidate will possess an associate degree in accounting; experience in an accounting department performing all aspects of accounts payable; and proficiency in MS Office, including Outlook, Excel, Word, and PowerPoint.

**Job Title: Logistics Analyst (Onsite)**  
**Location: Malvern, PA or Titusville, NJ.**

**LOA: 10-24 months**

**Client: J&J**

**Pay rate: \$35-38/hr on W2**

The PDMS Clinical Supply Chain holds the global responsibility for all clinical supplies of the Janssen Research & Development portfolio and the Global Medical Affairs portfolio. Our activities include all in-house and outsourced manufacturing of clinical supplies (API, Drug Product, Packaged and Labeled Clinical Supplies), demand forecasting, supply planning, and global distribution of clinical supplies. Through a global network and organization (US, Switzerland, Belgium, Ireland, Netherlands, India), we are responsible for the manufacturing and scale-up of small and large molecules products in development and low volume commercial supply, and secure the supply to more than 60.000 patients in more than 330 clinical trials every year. We are actively seeking a Logistics Analyst, responsible for supporting global distribution activities for clinical supplies.

**Description of Role:**

This role is responsible for operational support of worldwide distribution activities of clinical supplies within J&J Pharma R&D (large and small molecules; for all phases of clinical trials, primarily North and South America geographic regions with support to EU and ROW as required) as part of the Trial Supply Management organization.

**Role Responsibilities:**

- Monitor the performance of existing logistics and distribution providers and support efforts to ensure continuous improvement by the providers. Compile data and analyze trending through utilization of KPI and quality metrics.
- Manage and maintain the global knowledge database of best logistics practices, guidance, and requirements for the organization. Ensure that information is clear and valuable for use by Logistics end-users (Trial Design, Trial Supply Management, Global Clinical Organization).
- Continuously analyze providers and vendors in collaboration with business partners (e.g. Procurement/Sourcing, Regional/Worldwide Transportation Organizations, QA) to identify new solutions and services, ensuring the most efficient and cost effective distribution providers are available to end users.
- Support and manage executional preparedness for the expanding reach of clinical trial operations. Analyze providers for capabilities and solutions to support these needs.
- Provide subject matter expertise to Trial Design and Trial Supply Management support to ensure the optimal logistics network is utilized during trial conduct.
- Identify and support the development and implementation of solutions between IVR and Logistics provider network to ensure that order integrity is maintained and manual intervention is minimized in the order fulfillment process.
- Utilize resources to continuously analyze and recommend the optimal materials for cold-chain and other critical condition shipping materials. Manage the system to oversee global inventory management of these supplies.
- Leverage the RTO (Regional Transportation Organization) to apply existing compliance and security resources to the Trial Supply Management logistics network.
- Support/execute logistics projects as required
- Support Import/export issue resolution (primarily in the Americas with ROW support as required)
- Forecast for depots and couriers in order to make sure that they can commit to the distribution demand in order to deliver supplies on time and with the right quality.

**Qualifications:**

- Bachelors degree and 1+ years in logistics / operations or similar industry + years related experience in logistics / operations or similar industry, or
- Knowledge and understanding of clinical study needs and clinical operations is preferred.
- Experience in managing distribution, transportation, and logistics.
- Knowledge of ambient, cold and / or frozen distribution requirements
- Knowledge of import/export processes
- Working knowledge of GCP/GMP processes is preferred
- Knowledge of IVRS functionality or EDI-based shipment order processing is a plus
- Ability to collaborate internally and externally to develop partnerships with key stakeholders and service providers to identify, shape, and deliver logistics and distribution solutions.
- Ability to work independently in a cross functional and cross cultural environment
- Strong operational and analytical skills
- Expertise in MS Excel for data trending and analysis
- Working knowledge of SAP and Logistics Track and Trace systems
- Understanding of 3rd party supplier purchasing (RFP), contractual, and budgeting processes
