# HOW TO MANAGE THIS PROCESS ~ NO SWEAT

## 5-Step Ordering Process

# PAR METHOD

## STAR Method

1

PROBLEM (Situation and Task) Set the scene, Who are the players and their relation to you? What happened? How does it relate to the question at hand

2

ACTION: What did you do to fix the problem or handle the situation? Give some specifics here, but don't get too far in the weeds.

3

RESULTS: What happened? Give some metrics when possible. Did it result in a change in policy? Did the customer walk away happy and recommend you?

## SOME TIPS

1

Keep your  
answers  
short  
1-2 minutes

2

Have 5-6  
scenarios  
that you can  
use for a  
variety of  
questions

3

Write PAR or  
STAR in  
your  
portfolio  
that you  
take to the  
interview!

Practice

# IT'S NOT THAT YOU ARE SOMETIMES LATE

Pick something that you used to not be skilled in, but you improved the skill

Why was it a problem?

Did you determine that it was an issue or were you directed to improve by your supervisor or someone else?

What were your steps to improve?

How is your work life better now that this problem is resolved?

# EXAMPLE

Pick something that you used to not be skilled in, but you improved the skill

I was not organized with my data collection

Why was it a problem?

I had to work extra time to find the data to then analyze it and there was missing data

Did you determine that it was an issue or were you directed to improve by your supervisor or someone else?

I did. I was frustrated that I couldn't get it done more quickly

What were your steps to improve?

I researched a method and implemented it

How is your work life better now that this problem is resolved?

I now get my analysis done in a fraction of the time and there are no data gaps
